

BRAVERMAN EYE CENTER
Cross Linking Procedure Schedule

Exam – Contact Lenses to be removed at time of initial exam. Bring with you your contact case and solution.

The medical exam can be done under your insurance.
Co-Pays and deductibles will apply.

If we do not accept your insurance or you do not have insurance, there will be a \$200 fee for the full exam.

Full exam will include dilation, topography and pachymetry

Treatment costs cover the procedure (special medications used at the time of surgery and the surgeons fee) and three months of follow up care with us and your co-managing eye doctor. Prescription medications are not included. Finance options are available with Care Credit and Alphaeon.

Due to the cost of the special medication and the time that needs to be reserved for the procedure, payment in full must be made prior to scheduling a surgery date. All prescriptions and review of pre and post op care will be reviewed at that time.

Procedure will be done on Mondays or Thursdays. You will need someone with you to drive and you will be here approximately 2 ½ hours. After surgery, schedule is as follows:

One day post op

4-5 days after treatment - post op to remove contact lens bandage

1 month post op

Can resume contact lens wear
2nd Eye can be scheduled for Cross linking

2 month post op – will be done with your referring eye doctor

3 month post op - will be done with your referring eye doctor
